1. A telephone interview by the examiner with Joseph R. Milner was held on 08/16/05, requesting shortening of the abstract of the disclosure and rewording of dependent claims 2 and 3 to put them in proper format for U.S. Patent practice. Joseph Milner faxed in on 08/17/05 a preliminary amendment with such corrections, which has been entered and putting the application in condition for allowance.

2. The following is an examiner's statement of reasons for allowance:

The prior art fails to teach the invention as claimed in independent claims 1, 4, 13, 15, and 16, requiring in the combination as a whole the specified data types and algorithmic operational interrelationships there between for developing a model parameter describing physical properties of a medium. These operations include the use of the spatial locations of the sources and receivers, various data transformations including Fourier transformation to create a spectral data set, normalizing data components at specific operation steps, iterations and minimizing steps of the specified selected data components.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Donald McElheny, Jr. whose telephone number is 571-272-2218. The examiner can normally be reached on Monday-Thursday from 7:30 to 4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hoff Marc, can be reached on weekdays at telephone number 571-272-2216. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
